Dear Brother Shorter:

We are a little people trying to do a big work. The years are long and change us into people we do not know except as we allow God's Holy Spirit to develop in us the character of Jesus Christ.

Bessie and I have watched you and your dear family over the years. We have admired your dedication to principle and steadfastness in seeking to learn and do God's will.

You have helped us toward a fresher awareness, a deeper compassion, a keener sense of joy in small blessings that each new day brings. As I finish my course and leave this office, it is my hope that for you and your family the day will ever break in brilliance and shadows will flee away.

Yours in Christian service,

AARON N. BROGDEN
